JAY THOMSON

SUPPLY CHAIN & DATA ANALYTICS PROFESSIONAL

+41 78 214 6022 | jayrobertthomson@gmail.com | jayrobertthomson.github.io

PROFILE

Supply chain and data analytics professional with experience in global supply planning, operational analysis, logistics and costing. Currently managing supply planning across multiple product categories at Specialized Bicycle Company, using data to support forecasting, inventory management and purchasing decisions.

Hands-on experience with Python, SQL, Snowflake, Tableau, Excel and Oracle, including building databases, developing dashboards and creating reporting tools. A former professional cyclist, bringing practical problem-solving skills and experience working with international teams.

PROFESSIONAL EXPERIENCE

SPECIALIZED BICYCLE COMPANY EUROPE | November 2023 – Present

Global Supply Planner | July 2025 – Present

- Manage global supply planning for Road, Active and Wheels, from vendor ordering through to warehouse delivery.
- Analyse sales data and demand forecasts, making final decisions on ordering quantities.
- Work with the purchasing team to coordinate orders and delivery requirements.
- Plan stock allocation across Europe, the USA and Asia, including transfer quantities for regional subsidiaries.
- Monitor incoming supply and inventory levels to identify shortages or excess stock.
- Analyse obsolete inventory to support product write-off decisions.
- Wrote a Python script for an ongoing month-to-month minimum order quantity (MOQ) analysis.
- Use Excel, Python and Oracle for supply planning, analysis and reporting.

Operational Analysis, Logistics & Costing | November 2023 – June 2025

- Analysed warehouse performance and on-time stock transfers to support operational improvements and future projects.
- Coordinated daily logistics and stock transfers across Europe.
- Maintained product costing updates and built a historical costing database in Snowflake.
- Built Tableau dashboards using Snowflake data to track costing changes and support reporting.
- Supported costing audits by preparing, reviewing and validating historical cost data.

SETTE SPORT | Sursee, Switzerland

Development Cycling Coach | October 2022 – October 2023

- Coached and mentored 13 professional cyclists, analysing training and race data to support performance.
- Planned training schedules, race programmes and training camps.
- Worked on a Python Dash application for training and race-data analysis.

SHOREWORK SPORTS | Freiburg, Germany

Marketing Manager (Part-Time) | October 2022 – April 2023

- Supported European PR, sponsorship activities and athlete partnerships alongside another role.
- Managed sponsorship relationships with cycling teams and individual athletes.

Marketing Manager | November 2021 – October 2022

- Managed PR and sponsorship work across more than 15 regions, focusing on Southern Europe.
- Prepared athlete sponsorship contracts and managed relationships with cycling teams and partners.
- Created digital and print content for product launches and analysed customer service data.

Customer Service Manager | April 2021 – November 2021

- Handled more than 300 customer issues and requests per month.
- Analysed service data and helped build the Stages cycling community through virtual events.

PROFESSIONAL CYCLIST | International

January 2006 – December 2020

- Raced professionally for 15 years, including the Tour de France, Giro d'Italia and Vuelta a España.
- Won multiple South African and African championship medals, including the 2013 South African road title.
